A tradition since our very first Fernside meeting, many kids tell us that a favorite aspect of Fernside is the pizza dinner served before support group meetings. “Pizza Time” is an opportunity for Fernside families to socialize and enjoy hospitality with each other before focusing on their grief. As our program has grown so has our pizza order! LaRosa’s generously donates over 350 pizzas annually but our costs for pizza and soft drinks exceed $10,000 each year! Additionally, our downtown satellite lost last year’s in-kind parking donor and because the cost is a barrier for some families, we reimburse the expense. We anticipate exceeding $2,000 in parking costs this year as our downtown location grows. Thanks to the Jay and Raye Hubbard Raymond Gift Fund for matching donations up to $2,500 so we can continue to offer a Fernside favorite to grieving families.

Fernside’s Crisis Response Program supports schools after they have experienced the death of one of their own – a student, teacher or other school community member. We provide consultation, resources and on-site support and education for faculty, parents and students. One of the most impactful ways we can help schools is by educating them prior to a crisis. On January 31st, over 60 professionals attended Fernside’s seminar to learn ways to proactively prepare for the possibility of a crisis at their school. Our continuing education offering featured staff who presented on school crisis situations and a panel of school professionals from Southwest Local School District, St. Margaret of York School, Ursuline Academy and Warren County Educational Service Center, who discussed their experience with death and grief in their school.

A publication for grieving children and their families

Fernside Classic Retreats are fun and educational. They are especially designed for children who are especially grateful that so many of them give back to Fernside so the next generation of grieving kids can benefit from our services. Greg has generously decided to donate his cleats to Fernside which will be auctioned off at our annual fundraiser, the Fernside Classic, where Greg will be our featured speaker!

Fernside alum and NFL player, Greg Mancz, on Instagram, November 29, 2017

Greg Mancz, offensive lineman for the Houston Texans, came to Fernside when he was 11 years old. As Greg’s older sister, Emma, and mom, Mary Beth, after the death of his father, Brian in 2003, Greg also attended our Teen Retreat the following year. On Sunday, December 2, Greg took the field wearing his custom-designed Nike cleats as part of the 2017 My Cause, My Cleats, My Cause NFL initiative. We are so proud of all of our Fernside kids, including Greg, who take advantage of all our programs but to offer and we are especially grateful that so many of them give back to Fernside so the next generation of grieving kids can benefit from our services. We are also serving more children whose family member died from a drug overdose, increasing from 3% served five years ago to 13% served last year.

As grandparent, we have a different role in the grief journey. We are often those who do not have a close relationship with the grandchild. We may have a very limited interaction, and our role is to support them in their grief journey. We can help them by being present and offering our support, listening to them, and helping them express their feelings. We can also support them by providing a safe space for them to express their emotions and by encouraging them to seek professional help if needed.

In conclusion, serving as a grandparent who has experienced a loss can be challenging, but it can also be rewarding. We can find strength in our relationships, support, and resilience to help our grandchildren through their grief journey. By being present and offering our support, we can help them heal and move forward.

If you or someone you know is experiencing grief and needs support, consider seeking professional help from a grief counselor, therapist, or support group. You can find resources for grief counseling, therapy, and support groups through organizations like the National Alliance for Grieving Children (NAGC) and the National Hospice and Palliative Care Organization (NHPOC).

Grieving children, for being the organization to get me to feel like a kid who could do life again. They taught me that everyone will grieve differently, but that a support group for children and their families can help you get through the traumatic experience and make the process less painful. It was another busy year at Fernside. Here are some of the trends we saw in our program.

**Family Member Who Died**
**Youth Group Participants**

|------|---------|---------|---------|---------|---------|---------|---------|

We also served many more children whose family member died from a drug overdose, increasing from 3% served five years ago to 25% last year.

**Number of Groups Held in Schools**
